#### **DETAILED ACTION**

### Continued Examination Under 37 CFR 1.114

- 1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/11/2007 has been entered.
- 2. Claim 4 is canceled without prejudice or disclaimer
- 3. Claims 1-3 and 5-13 are pending, claims 1 and 2 are withdrawn from further consideration as being drawn to a non-elected invention.
- 4. Claims 3,5-13 are examined on the merits.

## Claim Rejections Maintained - 35 USC § 102

The rejection of claims 3,5-13 under 35 USC § 102(b) as being anticipated by Holaday et al (WO 00/53219) is maintained for the reasons of record. Applicant's arguments are substantially similar those those previously argued and rebutted. In particular, applicant argues that the cited reference does not qualify as a reference under 35 USC 102(b) because the instant applicant shares a common priority date with US Patent 6,805,865, which also discloses conservative single amino acid substitutions of SEQ. ID No: 1. SEQ. ID No: 10 is related to SEQ. ID No: 1 in that there is a single amino acid substitution. Applicant's arguments have been carefully considered but are not deemed

Art Unit: 1643

approacion/control realization for co, re-

persuasive to overcome the rejection of record. Applicant has been denied priority to the earlier CIP application of 09/266,543 (now US Patent 6,805,865) and therefore the effective filing date of the instant application is 3/12/2004. Applicant argues that support for the claimed invention can be found in the earlier 09/266,543 application, however, general support is not sufficient to be given priority to the earlier application.

Therefore the rejection of claims under 35 USC 102 is maintained for the reasons of record.

#### Conclusion

No claim is allowed.

All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE**FINAL even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
